Resume

I hold a Master degree in Industrial Chemistry. My commitment in the study of languages and my university exchanges abroad have been the base on which I have built a solid knowledge of foreign languages. More specifically, I hold a C1 level in both English and Spanish. Thanks to scientific background and computer skills I started an experience in American consulting company (Accenture). While I am learning on a everyday basis about the new trends of the technology industry, I am looking for jobs (also internship) more similar to my profile where I can combine my scientific skills, the passion for information technology and my predisposition to communication. Following this logic, I am willing to travel from my home country to others location internationally.

Interests

Cooking, Health & Sustainability Promoter,
Travelling, Languages,
Sports: Swimming, Tennis, Skiing, Volley ball.

Education

10-16/3-19 M. Sc. in Industrial Chemistry, University of Bologna (108/110)
Main exams: Organic Chemistry; Physical Chemistry; Inorganic Chemistry; Industrial Polymeric Products; Development and Management of Industrial Chemical Process.

The whole second year spent in Madrid, Spain (Erasmus program): Universidad Complutense de Madrid, Faculty of Chemistry and Chemical Engineering. Main exams: Advanced Operations of Separation; Computational Molecular Models; Process Design. Final project (experimental, carried out in Spain): Computer simulation of Ionic solution (seawater).

10-13/10-16 B.Sc. in Industrial Chemistry, University of Bologna (98/110)
Main exams: Organic Chemistry I, II; Physical Chemistry I, II; Analytical Chemistry; Inorganic Chemistry; Instrumental Analytical Chemistry; Industrial Chemistry; Polymer science; Introduction to Unit Operations in Chemical Industry.

Final year project (experimental): Fluid Dynamics of Static Mixer.

Experience

2-20/Now Accenture

System Integration Analyst - Design, develop, and configure software systems to meet market and/or client requirements either end-to-end from analysis, design, implementation, quality assurance (including testing), to delivery and maintenance of the software product or system or for a specific phase of the lifecycle. Apply knowledge of technologies, applications, methodologies, processes and tools to support a client, project or entity.

9-19/2-20 Accenture

Internship - System Integration Analyst

11-12/7-13 Cardea s.r.l.

Research activity to carry out a comprehensive benchmarking on all the innovative technical solutions (chemical plant) used for transforming and preserving agri-food products.

Languages

Spanish C1 with DELE certification
English B2
Italian mother tongue

Other Information

Since 2014 I'm giving Chemistry (general, organic and inorganic) private lessons for secondary school and A level students.
In 2015 I've spent two months in an English summer school in Santa Barbara, Ca, USA.
